| Neotame      | Erythritol Xylitol |

**Bulltaurine**  
*The Source of Energy*

## Taurine

**39** PRO  
CARNOSINE

## Carnosine

Carnosine is a dipeptide that protects against free radical damage, reduces inflammation, and improves exercise performance. It has also been shown to support healthy aging and improve brain function. Carnosine is commonly found in pre-workout supplements and other sports nutrition products.

**39**  
BETA ALANINE

## Beta Alanine

Beta-alanine is a non-essential amino acid that is produced naturally in the body. Beta-alanine aids in the production of carnosine. That's a compound that plays a role in muscle endurance in high-intensity exercise.

# Animal Feed Ingredients

## L - Theanine

Theanine is an amino acid found in tea leaves, particularly in green tea. It has been shown to have a number of benefits for both the mind and body. Theanine is known for its ability to promote relaxation and reduce stress, making it a popular ingredient in supplements designed to support a calm and focused mind. It has also been shown to improve cognitive function, boost the immune system, and support healthy blood pressure levels.
